

Abishek R Nambiar

Python Developer • Automation Engineer • B.Tech Information Technology

Kannur, Kerala • +919495677758 • abishekrnambiar@gmail.com • abishekrnambiar.github.io

SKILLS

Programming	Python, JavaScript, SQL	Web & APIs	FastAPI, Flask, REST APIs
Databases	PostgreSQL, MySQL	Platforms	Chrome Extensions, Telegram API

PROJECTS

Trading Signal Automation Tool | Python, JavaScript, Chrome Extension

- Built a Chrome extension that captures live chart data and forwards it to a Python backend in real time.
- Automated trading platform actions based on incoming signals with natural user-behavior simulation logic.
- Designed modular architecture cleanly connecting browser extension, Python server, and desktop automation.
- Eliminated manual intervention entirely — system runs end-to-end from signal detection to execution.

Automated News Alert Router | Python, Telegram API, AsyncIO

- Built a Python bot that monitors high-frequency message streams and routes them by configurable keyword rules.
- Used asynchronous processing for low-latency, real-time event handling with zero manual intervention after setup.

Digital Election System | FastAPI, PostgreSQL, JWT Auth

- Developed a secure election backend with 4-tier role hierarchy, JWT access control, and normalized database schema.
- Delivered 6 tested modules: voter registration, booth management, conflict escalation, and audit log export.

Trading Journal Web App | Python, JavaScript, REST API

- Built a full-stack web app with Python backend, vanilla JS frontend, calendar P&L view, and CSV/PDF export.
- Implemented REST endpoints with full CRUD support and clean separation between frontend and backend layers.

EXPERIENCE

Creative Lead | Mulearn TLY, Thalassery

Jun 2024 – Jul 2025

- Designed event posters and social media graphics using Figma for 6–10 community tech events over 13 months.
- Managed creative output independently while coordinating with a senior lead for approvals and feedback.
- Strengthened skills in visual communication, deadline management, and team collaboration.

EDUCATION

B.Tech – Information Technology | College of Engineering Thalassery

2023 – 2027

CERTIFICATIONS

- IBM – AI Developer Professional Certificate
- NVIDIA – AI Infrastructure & Operations Fundamentals
- University of Helsinki – Introduction to Artificial Intelligence
- HP LIFE – AI for Business Professionals
